SAP EP Business Package for FirstSpirit

Don't compromise your content management solutions for SAP NetWeaver®.

Delivering successful projects.

The certified Business Package for FirstSpirit ...

... because quality is the foundation of successful projects

Using SAP NetWeaver® for employee, customer or company portals requires a high-performance content management system with seamless portal integration to achieve open, personal communications. Business Package for FirstSpirit facilitates the seamless integration of CMS FirstSpirit with SAP NetWeaver® Portal, providing a fully integrated editorial process, from content generation to its eventual publication on the portal.

A smooth and stable integration process delivers maximum value for project and IT managers.

... because it's in the news

“As part of the company’s strategy, EADS headquarters now relies on a combination of SAP Enterprise Portal and FirstSpirit.”

Source: vwd.de, 2005

“Integration of FirstSpirit and SAP Enterprise Portal now SAP-certified.”

source: ibusiness.de, 2005

At the end of 2005, Stuttgart-based Robert Bosch GmbH announced its intention to roll out the FirstSpirit CMS platform across the globe.

This integration is facilitated by a business package forged by e-Spirit and its partner HLP.

source: Contentmanager.de, 2006.

... because not every aspect of your project needs to be complicated

Easy to use for online editors:

This package allows online editors to create, structure and edit any type of content in FirstSpirit with great ease (e.g. text, media, and images). This content, along with the accompanying navigation structure, access rights and languages, is then automatically integrated into the SAP portal.

Clear layout for portal users:

content from FirstSpirit is presented clearly to users of the SAP NetWeaver® Portal user. Content and navigation is personalised to suit the portal user. Portal search functions are fully integrated and all content is subject to the SAP NetWeaver® Portal authorization.

... because the benefits make all the difference.

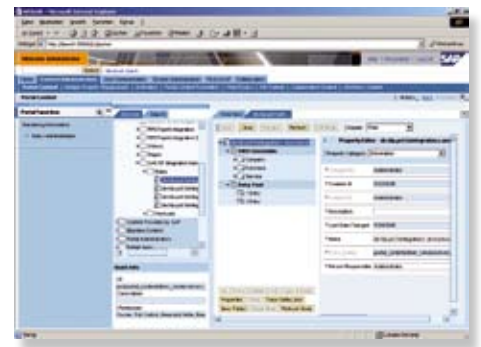

Internal target groups

Satisfying marketing departments and online editors

- Fully integrated editing process from content generation to publication.
- Automatic creation and display of all required objects in SAP NetWeaver® Portal.
- Editors require no previous knowledge of SAP NetWeaver® Portal or do not need to make any entries in SAP NetWeaver®.
- Supports all language versions; easy to link individual articles and personalized greetings.
- Powerful search function based on the TRES search engine.

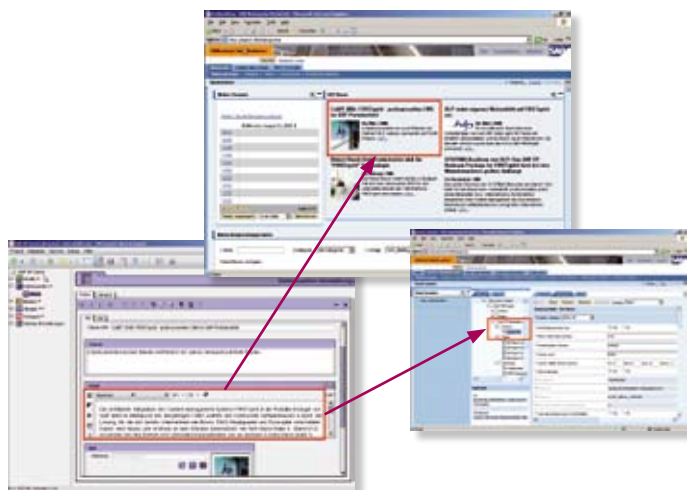

Satisfied SAP specialists and internal IT services

- FirstSpirit is fully integrated into SAP NetWeaver® standards (PCD, PCS, UME, KMC, WebServices).
- Automatic integration of content into the SAP NetWeaver® Portal navigation structure (including access rights)
- Content can be created in several languages. It is also media-independent (XML), theme-compatible (e.g., HTMLB), hyperlink-enabled, customizable, and subject to the SAP NetWeaver® Portal authorization concept.
- Supports cluster installations and external-facing.

... because SAP NetWeaver® Portal requires a CMS that fulfils the highest demands

Business Package for FirstSpirit helps you to develop powerful employee, customer and vendor portals. You can quickly and easily place text, images and other media elements inside your SAP NetWeaver® portal.

Using this approach, changes and updates implemented at a factory in Shanghai or at the company headquarters in London are completed in no time. This keeps your portal active and dynamic.

Full integration without any compromises ...

... because technology solves business problems

Business Package for FirstSpirit fully integrates FirstSpirit with SAP NetWeaver® Portal.

Personalization and access rights

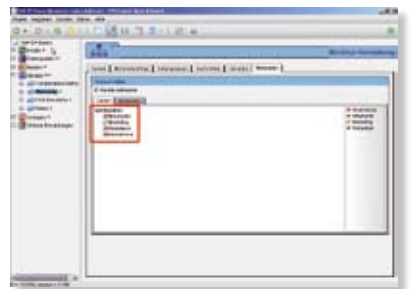

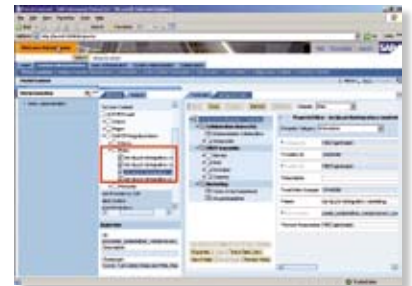

Portal content is delivered selectively depending on the users role defined in the SAP NetWeaver® Portal and maintained using FirstSpirit.

Editing and updating

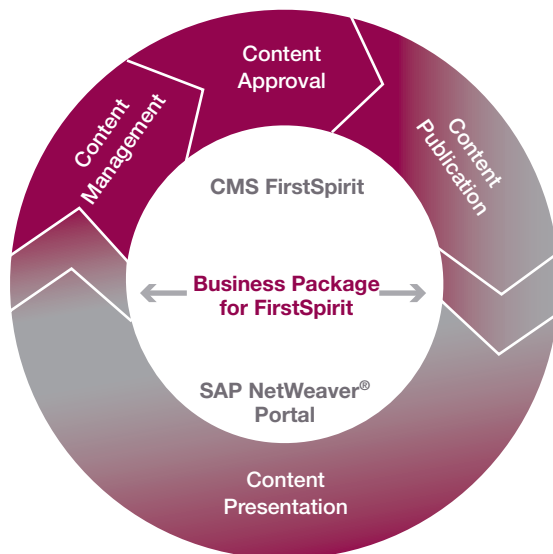

The merging concept allows you to automatically link content and structures from FirstSpirit with other portal worksets. This makes it easy for anyone to edit and update a wide range of content.

Search and find

The integrated SAP® portal search engine TREX let's you find content and documents quickly using a full-text search. Search results are displayed according to the user role and subject to portal authorization.

SAP NetWeaver® Portal roles are made available in FirstSpirit.

Business Package for FirstSpirit delivers a smooth, seamless editorial process, from local content management to the integrated presentation of content in SAP NetWeaver® Portal.
